What is UX Lausanne

UX Lausanne is the biggest conference held in the western part of Switzerland. Historically focusing on User Experience Design, we now decided to broaden our topics to the global web community. Gathering world-wide specialists, we aim to increase the density of connections and exchange between local and international actors of web design.

Our mission

- Bring overseas and european expertise to Switzerland, selecting the best specialists of the topics presented.
- Enable professionals, researchers, freelancers and students to meet.
- Allow attendees to exchange and to get inspiration from our varied workshops and talks.
- Generate wide networking opportunities.
- Draw attention to Switzerland and its industry on the map of creativity, design and interaction.

There are no comparable event in the western part of Switzerland and for this level of training, people have to travel overseas or attend specific conferences across Europe.

Why sponsor UX Lausanne

We are keen in knowledge exchange and taught UX methods and management at SAWI during a few years. We also founded UX Romandie, a bi-monthly enthusiastic and free event. We benefit from a strong experience in organizing web conferences, with already 30 editions of medium-scale events. Therefore, we may guarantee a partnership of great quality.

1

UX Lausanne is the only large-scale event in western Switzerland dedicated to web design. It draws local attendees, but also web practitioners from bordering countries.

2

UX Lausanne is an excellent opportunity to connect with major talented web actors, thanks to our regional assets:

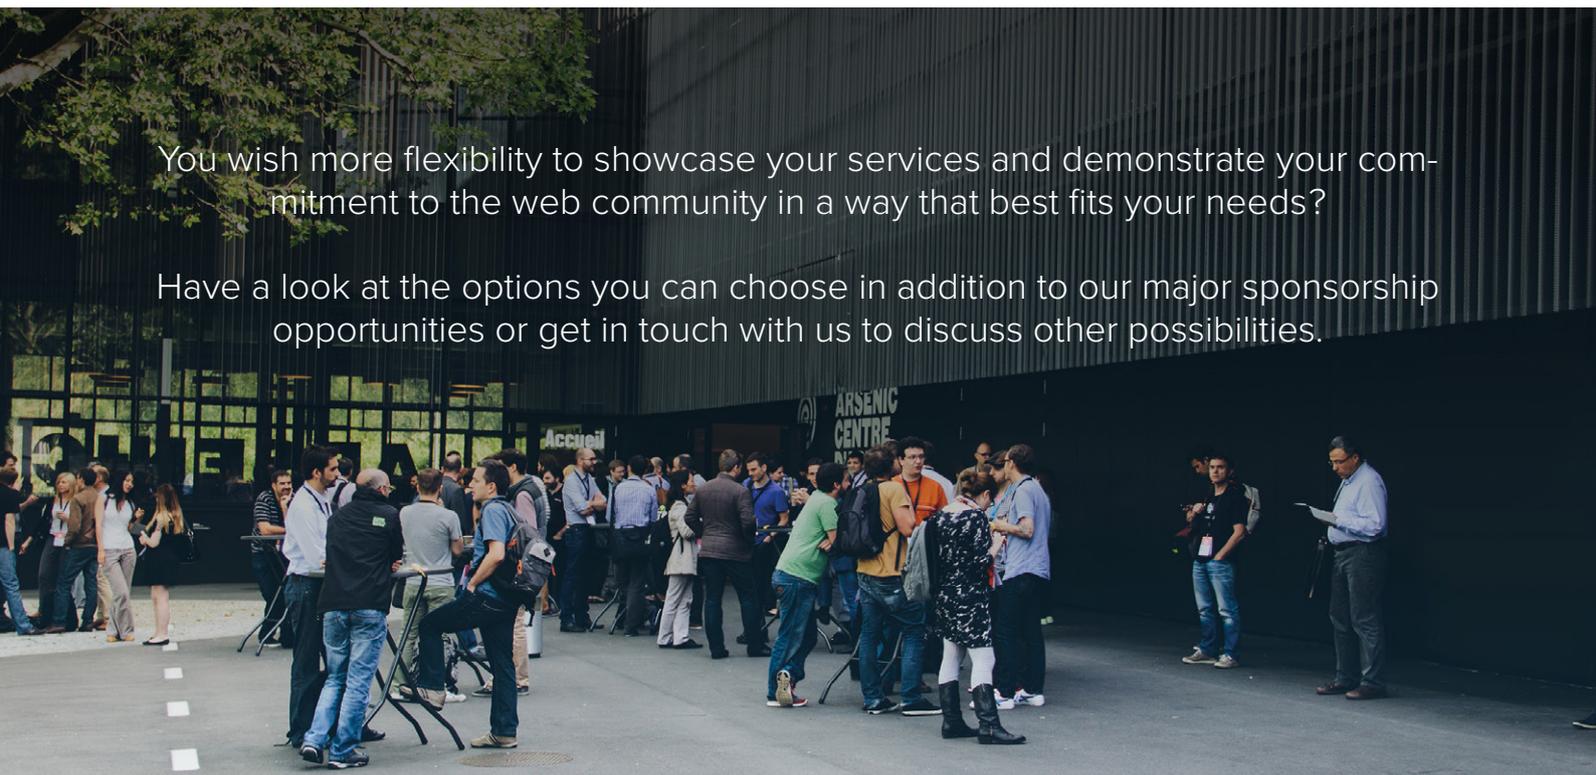

- About 200 new startups each year.
- Proximity of EPFL and its Innovation Park.
- Important economic area with main international companies and organizations.

3

UX Lausanne allows you to promote your brand, by creating an optimal visibility and networking options within a community liable to become your best ambassador.

You wish more flexibility to showcase your services and demonstrate your commitment to the web community in a way that best fits your needs?

Have a look at the options you can choose in addition to our major sponsorship opportunities or get in touch with us to discuss other possibilities.

What is User Experience Design

User experience design is a field where users and their needs are seen as the core concern, especially in interactive products such as software, websites, mobile apps and their interfaces.

When you find apps or systems particularly pleasant to use or fluid, chances are User Experience Designers were involved at different stages of their development.

User Experience Design (often abbreviated UX) is crucial for clarity and intelligibility of apps, software and systems.

Who we are

UX Lausanne 2016 is presented by **:ratio**, a web user experience agency based in Lausanne. Passionate about sharing ideas and innovation as much as creating interactions within the web community, a few members of the team have founded UX Romandie (uxromandie.ch), a bi-monthly enthusiastic and free event, that became in a very short time one of the highlights of the web calendar in the french speaking area.
